-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 10 is objected to because of the following informalities: In claim 18, lines 2 and 3, "control unit (8)" should be --control unit (6)--. Appropriate correction is required.

### ***Specification***

2. The disclosure is objected to because of the following informalities: In paragraph [0027] of the "Brief Description of the Drawings" "Fig 4 shows" should be --Fig. 4 schematically shows--, since there is no structural description of the two mutually orthogonal slotted links 24. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 10-22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

In claim 10, line 4, "a traction drive" is unclear, even though applicant has appropriately amended the specification. Examiner still does not know what applicant is referring to as the "traction drive".

***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 10-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 10, line 12, "the actual rotation angle  $\mu$ " lacks antecedent basis.

In claim 10, line 13, "the rotational position" lacks antecedent basis.

In claim 11, line 2, "the instantaneous rotation angle  $\mu$ " lacks antecedent basis. Examiner notes, whether "the actual rotation angle" the same as "the instantaneous rotation angle"!

In claim 12, line 4, "the instantaneous rotational position" lacks antecedent basis.

In claim 23, line 6, "the actual rotation angle  $\mu$ " lacks antecedent basis.

Claim 23, line 10-12, "corresponding the direction of actuation of the vehicle in the control elements corresponds to the direction on movement of the vehicle in any rotation of the seat" is unclear.

***Allowable Subject Matter***

7. Claims 10-23 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1<sup>st</sup> and 2nd paragraphs, respectively set forth in this Office action.
